My Portfolio

Summary

  As a software developer, I am passionate about creating innovative and impactful solutions for various domains, such as web development, artificial intelligence, and cyber security. I have a strong background in robotics and arduino, which I acquired through self-learning and teaching others.

I recently graduated from Namık Kemal University with an associate's degree in Computer Programming, where I learned the basics of C#, MSSQL, Matlab, Mobile programming and web programming. I also completed multiple certifications in cyber security, artificial intelligence, and Python from reputable platforms. I have applied my skills and knowledge in various projects and competitions, such as the FIRST FRC, where I won the "Best Engineering Award" and qualified for the international level, and the VEX Student Camp, where I won the tournament title and the first prize in autonomous programming. I also gained practical experience as an IT Technician at AMF Bowling for two months, where I supported the IT infrastructure and operations of the company.

  I am eager to learn new technologies and frameworks, and to collaborate with other developers and professionals in the field. I am motivated by the challenges and opportunities that software development offers, and I aspire to achieve great things that can benefit society and the environment.

Work Experience

IT Intern
Meridyen Games
June 2023 to August 2023 (1 month)
- Tracked performance and speed of desktop to maintain strong infrastructure. Updated operating systems and computer software to enable compatibility with programmes. I performed computer, internet, and various software installations in bowling and game machine arcades.

Web Developer
Freelancer
June 2023 to ~
- Making websites for customers. I'm using html, css/sass, javascirpt usually. And node.js, react, sql according to customer's request.

Relevant Skills

- Arduino
- C#
- Html
- Css (Scss / Sass)
- Javascript (jQuery)
- MsSQL
- Algorithms
- VEX Robotics
- Photoshop
- Wordpress /Joomla
- Knowledgeable in Windows systems
- Reactjs
- Nodejs (Taking courses)

- Attention to detail
- Punctuality
- Ability to conduct research
- Openness to learning new things
- Passion for the profession
- Ability to work harmoniously with team members
- Team player
- Empathy
- Respect for rules
- Effective communication
- Ability to work under pressure

Education History

Associate Degree of Computer Programming
Institution: Tekirdağ Namık Kemal University
Year of Graduation: 2023

Certification and Awards

**The Complate 2023 Web
Development Bootcamp**
Udemy - Dr. Angela Yu

Full-Stack Development Bootcamp
Techcareer

Learn C# by Developing Applications
Udemy - Murat Yücedağ

Robotic Coding Educator Training
Tübitak

**Introduction to Artificial
Intelligence and Algorithms**
BTK Akademi

Introduction to Python
DataCamp

VEX Robotics Bootcamp
EduVasion

Cyber Security 101
Cisco Networking Academy
